Experience

GASS Parks, Wisconsin - *Hand Laborer/Builder*

June 2019 - November 2019 & May 2021 - December 2021

- Assisted Lead Foreman/Owner in building mountain bike trails in Dane County and Sturgeon Bay areas.
- Operated equipment such as skid-steers, cannycoms, plate compactors, sawmill, power tools and hand tools.
- Performed tasks such as chainsaw maintenance, making sure all machinery was topped with gas and properly working, and all axes and tools were sharp and up to par.
- Used various tools such as chainsaws, pulaskis, pick axes and sawzalls to remove trees, brush, and roots etc for Foreman to come through with the excavator.
- Followed behind Foreman with McLeod and fine rake to finish shaping rollers, jumps, berms and any other tread(trail).
- Once raking and shaping was completed, went back with the plate compactor to pack down any features and trail. Areas the compactor could not reach were shovel packed.
- Assisted in training new employees on raking and building techniques and performing all tasks necessary to complete the job.

Trek - Johnson Creek, WI - *Picker/Packer*

Jan 2020 - May 2021

- Picked orders in a timely fashion for bike shops and ecommerce orders.
- Packed all orders per Trek's guidelines for ecommerce or maintaining battery and ORM rules for packaging.
- Restocked packing stations with proper boxes, labels, stickers and tape/tape guns.
- Executed proper clean up at the end of each night; taking out cardboard, restocking shelves, cleaning up isle and sweeping the floor.
- Assisted any co-employee with lifting boxes, packing orders or settings on scanners to get orders packed and shipped on time.
- Maintained good relations with bosses and managers to ensure proper work flow.
- Participated in any side jobs that needed to be done; rearranging shelves, assembling/disassembling bike parts for shops, building carts, etc.

AVI Systems, Brookfield, Wi - *AV Technician*

July 2017 - June 2019

- Assisted Lead Technicians in the installations of court rooms, conference rooms, classrooms and medical rooms.
- Independently performed tasks such as hanging monitors, making cable connections, installing speakers, projectors & touch panels.
- Mounted & wired rack equipment into AV racks and installed racks into AV closets on site.
- Discussed with customers when onsite as to where they would like equipment installed based on their needs and functionality.
- Assisted customers/clients in how new equipment works and gave basic training.
- Met biweekly and monthly with team members, managers and area vice presidents to discuss office issues, upcoming jobs, company performance and relevant training.
